

## ACETONE CYANOHYDRIN

GOST 13198-77

### Properties

Color, max	15
Acetone Cyanohydrin, min, %	99,4
Water, max, %	0,2
Hydrocyanic acid, max, %	0,04
Acid calculated to sulfuric acid, max, %	0,1
Insolubles	absent

### HAZARD IDENTIFICATION AND SAFETY REQUIREMENTS

Acetone Cyanohydrin is very toxic substance, hazardous to health and aquatic environment. Hazard class 6. Safety requirements are written in the safety data sheet.

### TRANSPORTATION

In railway tank cars, in tank containers, in bulk

### APPLICATION

As raw material in production of methacrylamide, methacrylic acid, methyl methacrylate, methacrylonitrile, azo-bis-isobutyronitrile. Use for manufacture of insecticides, pharmaceuticals and components.
