

SULFUR

Industrial Sulfur Gas Granulated
TU 2112-002-05766540-2008 with amendmend 1

Properties	Superior grade
Sulfur content mass, %, not more	99.98
Ash content mass, %, max	0.02
Organic additions content mass, %, max	0.01
Acids mass content in conversion to sulfuric acid, %, not more	0.0015
Water content mass, %, max	0.2
Mechanical Impurity (paper, wood, sand and others)	No allowed
Appearance	Hemispherical pellets
Mass fraction of the granules in diameter 2,0-6,0 mm. % not less than	92
Bulk Weight, kg/m ³ , not less than	1100

HAZARD IDENTIFICATION AND SAFETY REQUIREMENTS

Causes skin irritation. Not classified as hazardous.

TRANSPORTATION

In big bags in containers, rw wagons, auto trucks

APPLICATION

Sulfur is used in production of other chemicals and as a component substance in manufacture/formulation of chemical products, rubber products
