

## PTBP (Para-tert butyl phenol)

TU 2425-003-48147971-00 with changes 1-9

Properties	Grade A	Grade B
Appearance	Granules, flakes, crystals of white colour. Pinc-creamy shade is allowed	Granules, flakes, crystals of white colour. Pinc-creamy shade is allowed
Temperature of crystalizing, °C, min	98	97
Color of solution in ethyl alcohol, Hazen, max	50	50
Mass fraction of basic material, %, min	99,5	97
Mass fraction of water, %, max	0,3	0,3

### HAZARD IDENTIFICATION AND SAFETY REQUIREMENTS

Causes skin irritation, risk to serious eye damage, respiratory system. May pollute the environment. Toxic for aquatic life with long-lasting effects. Complete safety requirements are written in the safety data sheet.

### TRANSPORTATION

In special bags

### APPLICATION

Used as intermediate substance for production other chemicals. A raw material for the synthesis of phenolic resins used in manufacture of lacquers, plasticizers and colours.
